Description

Ages 0 to 3 years. 'Teach Your Baby' helps to stimulate a baby's neural pathways, build vocabulary, and develop innate grammar understanding -- in more than one language! Children learn multiple languages more easily and quickly before the age of three than at any other time in life, because their brains are still rapidly developing. Teaching counting, colours, body parts, animals, clothes and more, 'Teach Your Baby' focuses on concepts and objects which infants can comprehend like time, or social greetings.
